

PhD Research Awards in Basic Medical Research

- **Make an important contribution to the health of children through medical research**
- **Work with one of Australia's most respected national and independent medical research institutes**
- **Gain valuable experience in the not-for-profit sector**

Why not take control of your own future and be proactive in the choice of research area that excites you. If you're an outstanding and enthusiastic graduate committed to a career in research then apply now for a CMRI PhD Research Award.

The Children's Medical Research Institute (CMRI) is an award-winning state-of-the-art medical research facility, with over 100 full-time scientists dedicated to researching the genes and proteins important for health and human development.

The CMRI is supported in part by its key fundraiser Jeans for Genes®. Our scientists are internationally recognised research leaders and foster excellence in postgraduate training. CMRI graduates are highly sought after nationally and internationally.

The CMRI is located at Westmead, a major hub for research and medicine in NSW, and is affiliated with the University of Sydney. We are easy to access by public transport.

Applications are evaluated in a highly competitive process involving selection and interview by a PhD Admissions Committee. Successful applicants will be awarded a Research Award, consisting of a \$7,000 per annum top-up over the value of an Australian Postgraduate Award, for 4 years. Successful applicants will also be expected to apply for external scholarships with support from CMRI research leaders.

Projects are multi-disciplinary with training in molecular and cellular biology techniques, with some involving mass spectrometry, proteomics, bioinformatics, protein-protein interactions, transgenic animals or live cell imaging.

More information can be found on our website www.cmri.org.au.
A list of current PhD projects available can be found at the following URL:
www.cmri.org.au/Research/For-Students/PhD-Projects-Available

Eligibility requirements

Applicants must hold:

- a relevant Bachelor's degree with first or second class Honours, OR
- a research Master's degree, OR
- at least 6 months of supervised research training.
- Applicants must be available to start a full-time PhD at CMRI at the start of 2020.
- International students are eligible to apply, but the CMRI award does not cover university tuition fees.

Your application (**quoting PV1920**) should include:

- A completed application form, available from <http://www.cmri.org.au/Research/For-Students/CMRI-PhD-research-award>
- A copy of academic transcripts showing subjects and grades. Applications **will not be considered** in the absence of academic transcripts.
- Evidence of Australian or New Zealand citizenship, or Australian permanent residency if applicable.

Application form should be send as a **single PDF file** by email to recruitment@cmri.org.au

Closing date for applications is **Monday 30th September 2019**.
